

Garren Dullas

Cloud / Platform Engineering

Information Technology student building and operating cloud-hosted backend systems. Hands-on with containerized services, deployment automation, identity, monitoring, and backend applications across Azure, DigitalOcean, and Oracle Cloud.

SELECTED PROJECTS

JobBoard-DevOps

Cloud / DevOps Developer | October 2025

- Architected a full-stack job platform and worked on its AWS-to-Azure deployment study for minimum-wage job seekers.
- Designed Azure Static Web Apps, Container Apps, and MySQL Flexible Server components with Docker, GitHub Actions, and ARM templates.
- Connected application delivery to cloud infrastructure through separated frontend/backend services and an automated container pipeline.

GitHub -> Discord Bot

Cloud / Backend Developer | 2026 - Present

- Built a service that tracks repository updates for personal, group, and friends' projects.
- Deployed the service on Oracle Cloud using Podman, Quadlet, Caddy, and a secure HTTPS gateway.

JRU Atlas

Cloud / Full-Stack Developer | 2026 - Present

- Developing a private accreditation workspace for university programs on DigitalOcean.
- Working across the application, background workers, and private language-processing service.

LaborWise

Cloud / Backend Developer | 2026 - Present

- Developing a private Philippine employment-rights service with a web API and scheduled legal-source updates on Azure.

EXPERIENCE

LGU Botolan, Botolan Municipal Hall, Zambales

IT and Administrative Assistant | February - March 2023

- Supported software and hardware troubleshooting, local network maintenance, and workstation setup.
- Managed records and clerical tasks while supporting day-to-day administrative operations.

CORE FOCUS

Cloud: Azure Container Apps, Azure Container Registry, DigitalOcean, Oracle Cloud

Operations: Docker, Podman, GitHub Actions, Linux, Caddy, Quadlet, HTTP/TLS

Identity and monitoring: Managed Identity, RBAC, Log Analytics

Backend: Python, FastAPI, PHP, Laravel, SQL, MySQL, shell scripting

SUPPORTING EXPERIENCE

JavaScript, TypeScript, React, Flutter, Firebase, TensorFlow, NLP, Streamlit, causal inference

EDUCATION

Jose Rizal University

B.S. Information Technology

Mandaluyong | August 2023 - Present

Expected graduation: 2027

CERTIFICATIONS

CompTIA ITF+

IT Specialist - Java

IT Specialist - Databases

Wadhvani - Job Ready: Employability Skills
